Deny Wilson Claim.

Emphatic denial of the claims of the Woodrow Wilson managers of an even being in the Ohio primaries is made by the Harmon headquarters. An official statement from the Harmon men says that the governor has thirty-three delegates and Governor Wilson fifteen, and that the governor's plurality is 15,000. Under the unit rule, which has been endorsed by the only two county conventions to meet, it is claimed that Governor Harmon will have the forty-eight Ohio delegates in the convention.

Armed Citizens Defend American Property and Rebels Are Driven Off

SANTIAGO, Cuba, May 25.—The Santa Lucia plantation, near Gibara, in the northern part of Oriente, which is American property, was attacked late yesterday by a strong band of negro insurgents. Armed citizens repelled the attack, killing three of the negroes and wounding five.

Conditions throughout the Oriente province are serious. General Estenoz, the insurgent leader, has notified all the sugar estates in this region that they must stop grinding within seventy-two hours, on penalty of having their mills and cane fields burned. A band of 150 mounted negroes plied a store at Rio Frio, near El Cobre. The insurgents fired on a train of the Guantanamo and Western Railroad, but did no damage.

Mobilization Gives New York Harbor Appearance of War

TOMPKINSVILLE, Staten Island, N. Y., May 25.—The harbor of New York presented a lively spectacle today during the mobilization of a fleet for service in Cuba. Four battleships of the Atlantic fleet and the armored cruiser Washington steamed up the bay, and in addition the big dreadnought Dela-

ware, after saluting her sister ships, moved up the Hudson river and anchored off Grant's Tomb.

The four battleships at Tompkinsville took on 600 marines during the morning. Most of this number arrived at the Brooklyn navy yard early in the day from Portsmouth, N. H., and from Boston. They were taken across the bay and assigned to the Minnesota, the Mississippi, the Missouri, and the Ohio, all of which vessels, it is understood, will sail for Key West any hour now, on the way of Cuba.

Three of the ships are expected in the Rhode today and the others will arrive tonight or Monday.

DEMOCRATS HEAR NEWMAN FACTION WILL BOLT TICKET

Great Interest Aroused as
Time Nears for Cast-
ing Ballots.

With the first chance to cast a ballot in the last four years, coming tomorrow, when the polls open for the Democratic primaries in the District, adherents of that party are displaying keen interest in the outcome and the trend of the six votes to be sent to Baltimore convention.

Supporters of an un instructed delegation from the District are jubilant today over the final split in the Clark forces.

It was rumored this afternoon, and it seems that the rumor has some foundation in fact, that the following of National Committeeman Edwin A. Newman, turned down by the National Clark headquarters, is preparing to bolt. Rumor has it that Mr. Newman will issue a statement this afternoon releasing his followers from their Clark pledge. Under the circumstances it is declared he will have a hard time holding them in line for the Speaker.

Want Free Delegates.

The Harmon leaders, the Darr, Carr, Benton faction, and other independent workers for an un instructed delegation, declare today that the final split of the Clark party following means victory for them at the polls tomorrow.

Edward Mitchell, one of the Harmon supporters, who has been active in his fight against an instructed Clark delegation, is declaring today the action of the Clark party in bringing outside interference into local politics.

Newman Defiant.

National Committeeman Newman has announced that he is still in the running and has no intention of withdrawing his candidacy for re-election as national committeeman.

WAR ON FLIRTING LEADS TO ARREST

Cotton Broker and Girl Do Not
Know Each Other's Name
at Station.

Spectacular flirting, a species of Cupid's art, on which the police of the First precinct have declared war, received its first blow in F street north-west last night when a pretty girl who subsequently gave her name as Miss Vivian Earle, and a man who said he was John Franklin, a Houston, Tex., cotton broker, were arrested for meeting each other following "wireless" signals.

After the arrest the cotton broker was taken aside and asked his name. He said it was Franklin. He was then asked the girl's name and said he didn't know. The young woman was released on a deposit of \$10 collateral for her appearance in court. Franklin's "spectacular" flirtation cost him \$20.

POLICE ARE ASKED TO RENEW SEARCH FOR MISSING MAN

Mrs. Crall Believes Husband
Is Wandering About in
Dazed Condition.

Distraught to a point of hysteria over the unaccountable disappearance of her husband, John A. Crall, thirty-five years old, of Franklin Park, near Great Falls, Va., Mrs. Crall appealed to the Washington police today to make renewed efforts to find the missing man. Crall has been missing from his home at Franklin Park, where he and his wife have lived happily since their marriage two years ago, since last Sunday afternoon.

Mrs. Crall fears her husband is temporarily dazed, and is wandering about this city in a dazed condition. She declared to Captain Boardman that her husband is not a drinking man, and he had no reason whatever to leave his home.

"If I had even quarreled with him before he left me," said Mrs. Crall at Police Headquarters, "I could ascribe some reason for his continued absence, but John and I had no domestic difficulty whatever, and why he should do this makes me think that something has happened to him."
